Subject: RE: Pipeline question

Approved:

"The project is under review by our environmental regulators, who are aware of the concerns and are continuing to receive public comment. They are examining carefully the effect on North Carolina communities. At the same time we must recognize the much-needed jobs and energy this project could provide to rural areas of our state."

Subject: Pipeline question

A draft statement if there are questions:

"The project is under review by our environmental regulators, who are aware of the concerns and are continuing to receive public comment. They are examining carefully the affect on North Carolina communities. At the same time we must recognize the much-needed jobs and energy this project could provide to rural areas of our state."
